	Big sagebrush	0.05
Atriplex canescens	Rincon fourwing saltbrush	0.03
Ceratoides lanata	Winterfat	0.05

The pound per acre figures applies to drilling or other application methods, which incorporate seed into the soil surface. For aerial application (either by aircraft or broadcast) double the recommended rates shown. The column that is bolded shows the pounds Pure Live Seed of each species that is needed to be applied for each acre.

The seed will be accompanied by an official seed analysis report that provides documentation to show no noxious weed seed per Colorado State weed law and more than 0.5% other weed seed. The test documents will be one of the following, a certified Blue Tag , an independent seed lab test or a seed lab analysis supplied by the vendor.

See attached for GPS locations on Drill holes 1 through 90
