Re: Application 09-462(a35874)

Dear Mr. Jones:

The Green River Canal Company objects to the application of 09-462(a35874) San Juan County Water Conservancy District's proposal using 24000.0 ac-ft from the Green River (5 mi NW. of Green River) for STEAM GENERATION..

We wish to file a formal protest to said application due to the already depleted amount of water available to the current water users for domestic use. We do not believe that water rights issued for another area should be allowed to be moved to a new take out which impacts our system.

Thank you.

Sincerely,

Dean King, President  
Green River Canal Company  
P. O. Box 84  
Green River, Utah 84525
